

HMR (V313) ---

High Density Fibreboard

HMR (V313)

High Density Fibreboard

HDF-HMR is produced with high durability that can bear three times higher weight and pressure than most MDF. (< 800 Kg/m³) The material is highly resistant to moisture, therefore, it is suitable for built-in kitchen furniture, flooring and door.

Standard Size: 4 x 8 ft. | 6 x 8 ft.

Thickness: 1.5 – 18 mm.

FEATURES

Strength and high durability

Refine and smooth surface

Suitable for routing and spraying

High moisture resistant (Passed V313 test)

Easy and handy to install
